

QMine 3D Printed Model Album

Mining & Resource Development

Qmine is the pioneer designer and producer of 3D printed model for resource and mining industry.

We provide customized solution to 3D data visualization challenge using 3D printing and data processing technology.

Our product and service cater to a wide range of projects from grass roots exploration site to reclamation mine.

Midas Gold, Stibinite Gold Project

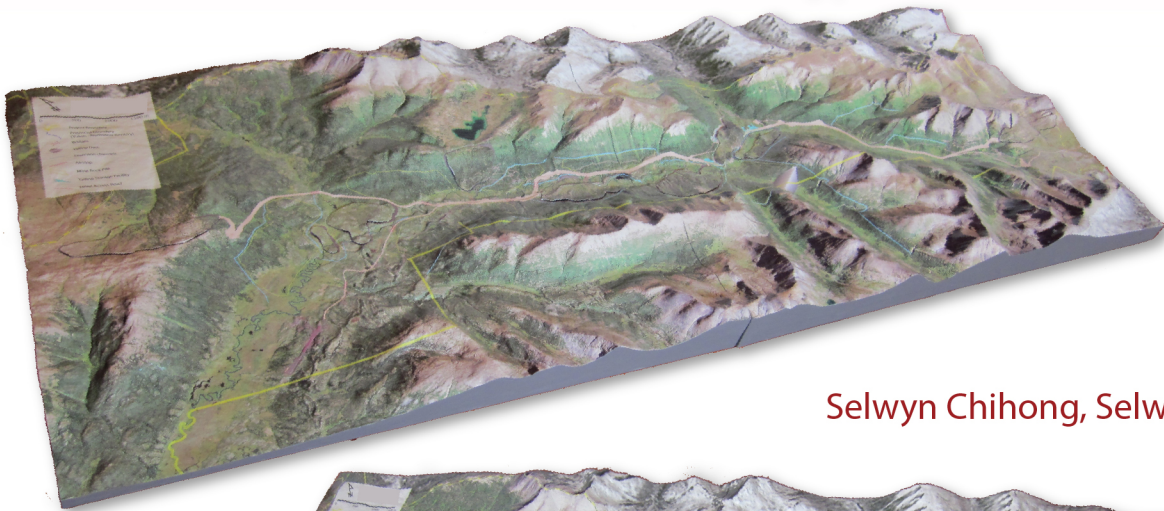

QMine 3D Printed Model

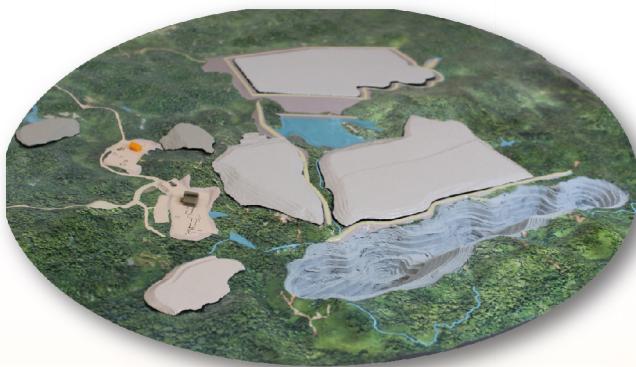

> One Model, Many Scenarios	01

Many Scenarios-1

QMINE uses magnetic removable inserts to show numerous site changes through different stages of a project: pre-mining; mining at different stages; reclamation

Selwyn Chihong, Selwyn Project

Nordgold, Montagne d'Or Project

Many Scenarios-2

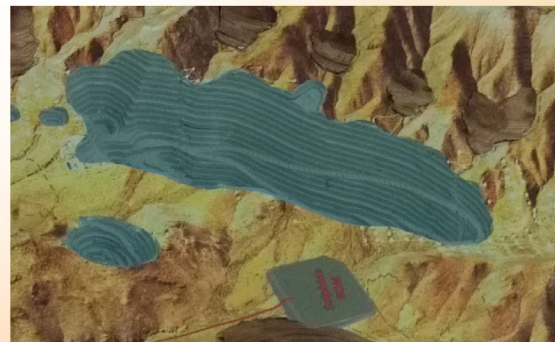

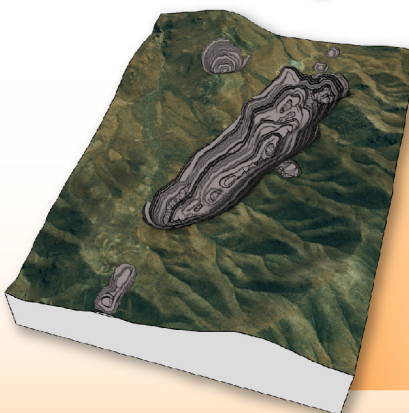

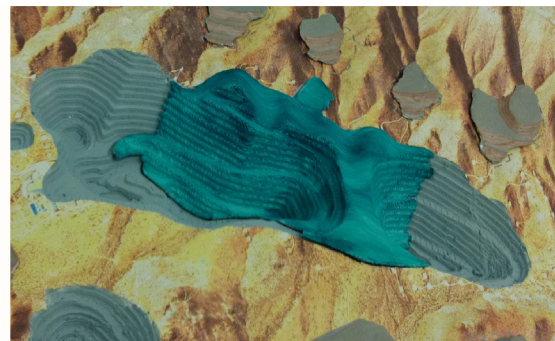

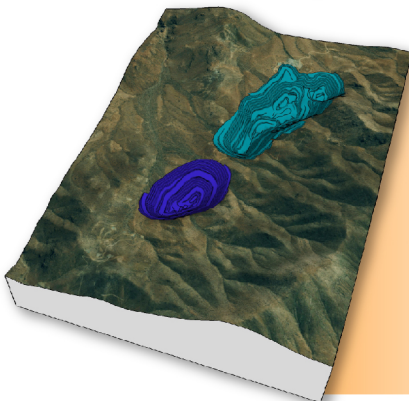

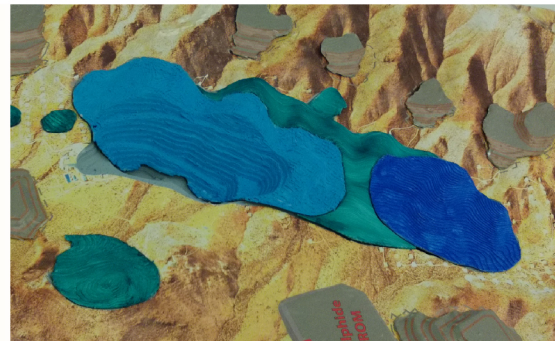

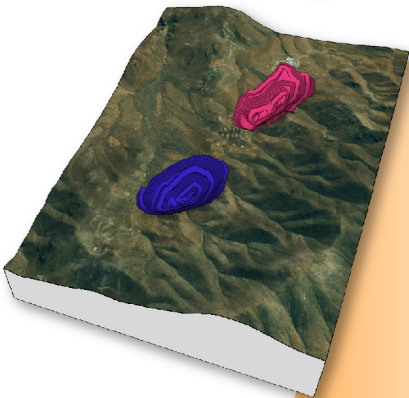

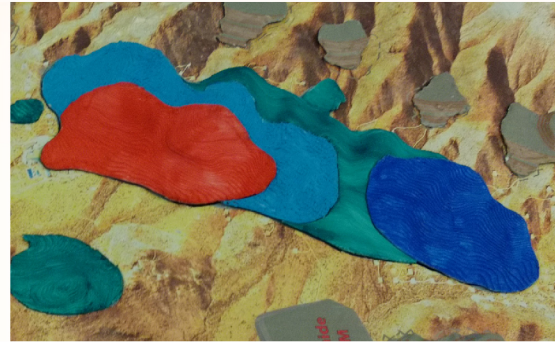

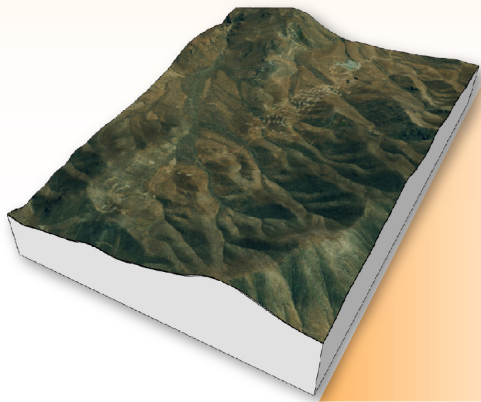

QMINE uses replaceable pieces to show numerous site changes through different stages of a project: pre-mining; mining at different stages; reclamation

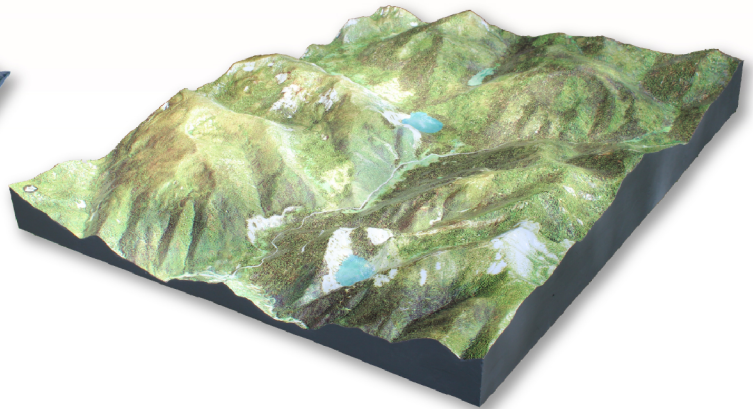

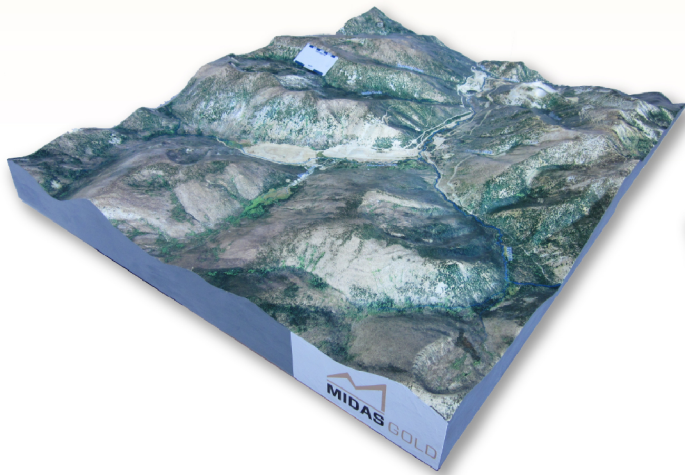

Many Scenarios-3

Staged Mining

showing planned mining extent at different years

Communicate projects near end of mine life or legacy mine clean-up:
Existing condition and Future Reclamation

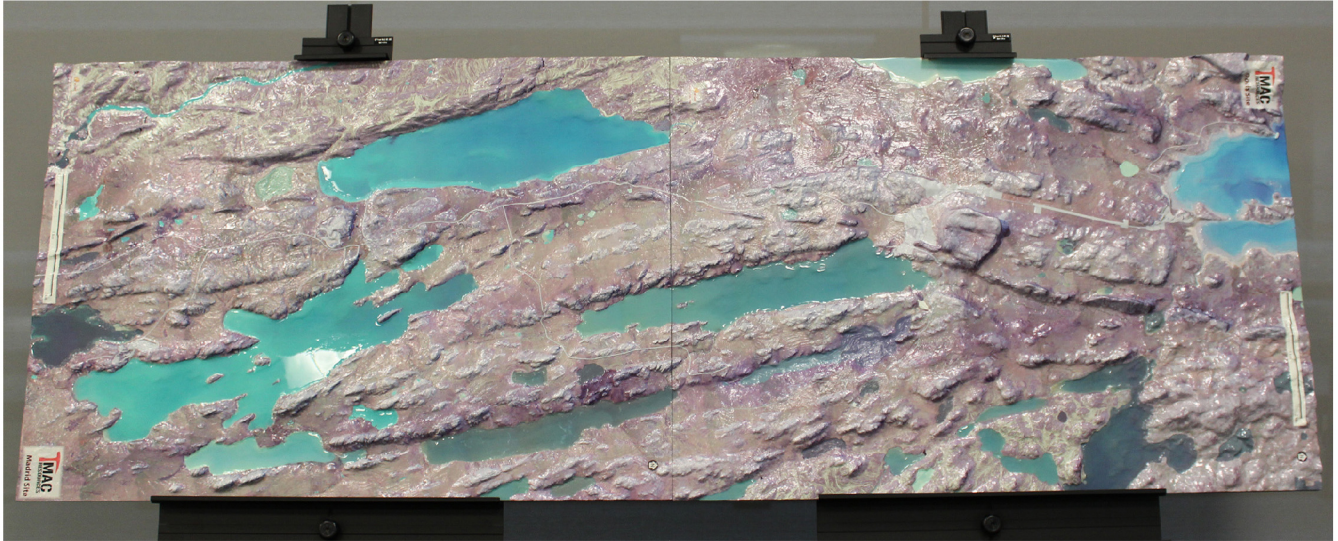

Midas Gold, Stibinite Gold Project & future reclamation

DeBeers, Victor Mine & future reclamation

No size limitation, seamlessly connected into ONE integral piece

Large size 3D map, 80 inches in length, consist of 2 pieces

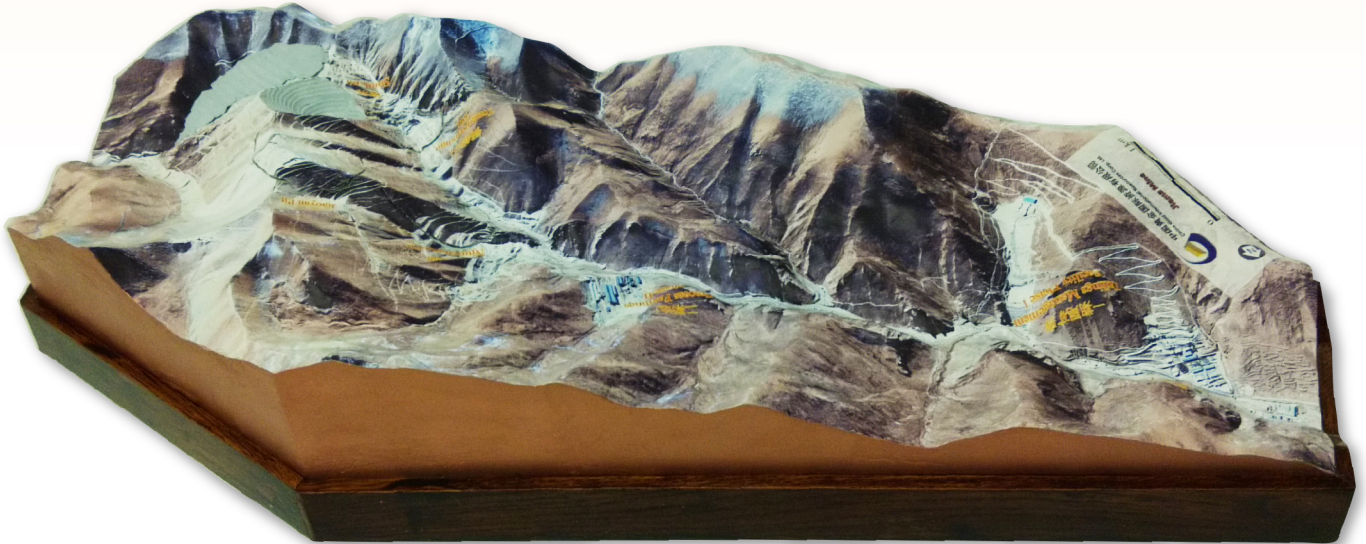

TMAC, Doris and Madrid Mine

Large size 3D map, over 5 feet in length, consist of 4 pieces

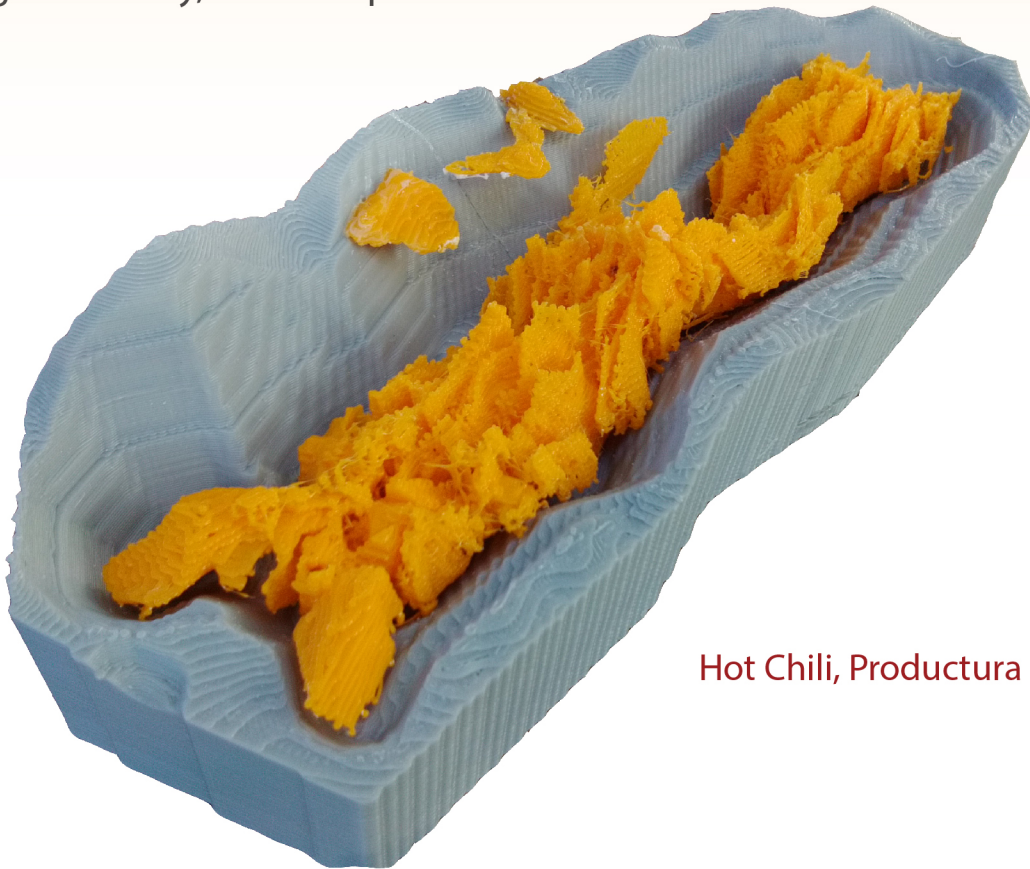

True Gold, Karma Mine

Customized irregular shape

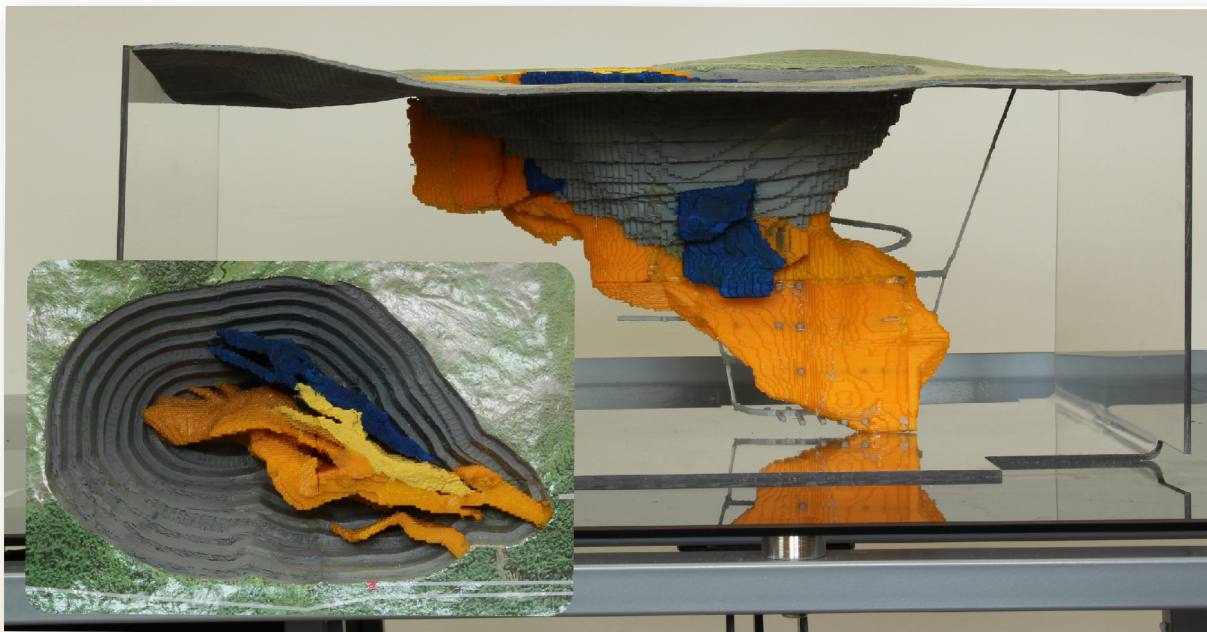

China Gold, Jiama Mine

Unparallel underground details directly printed from block model, high accuracy, least simplification

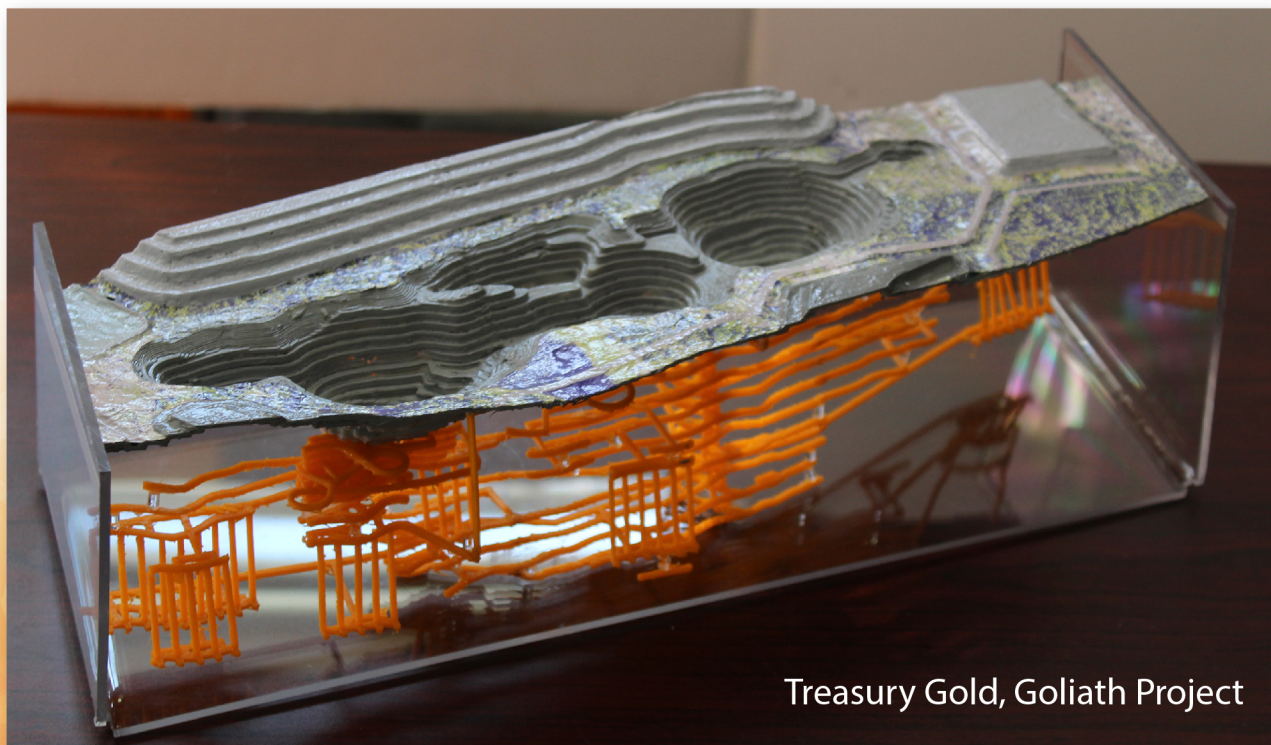

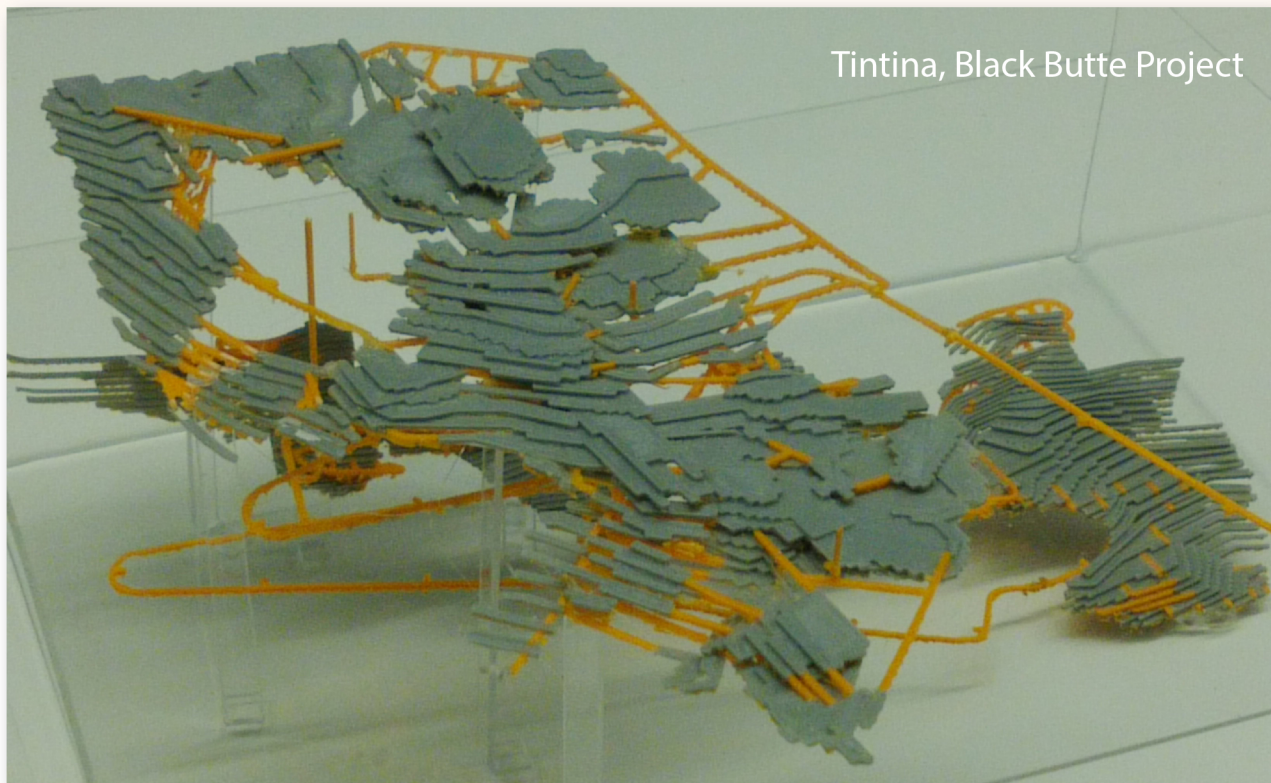

Hot Chili, Productura Project

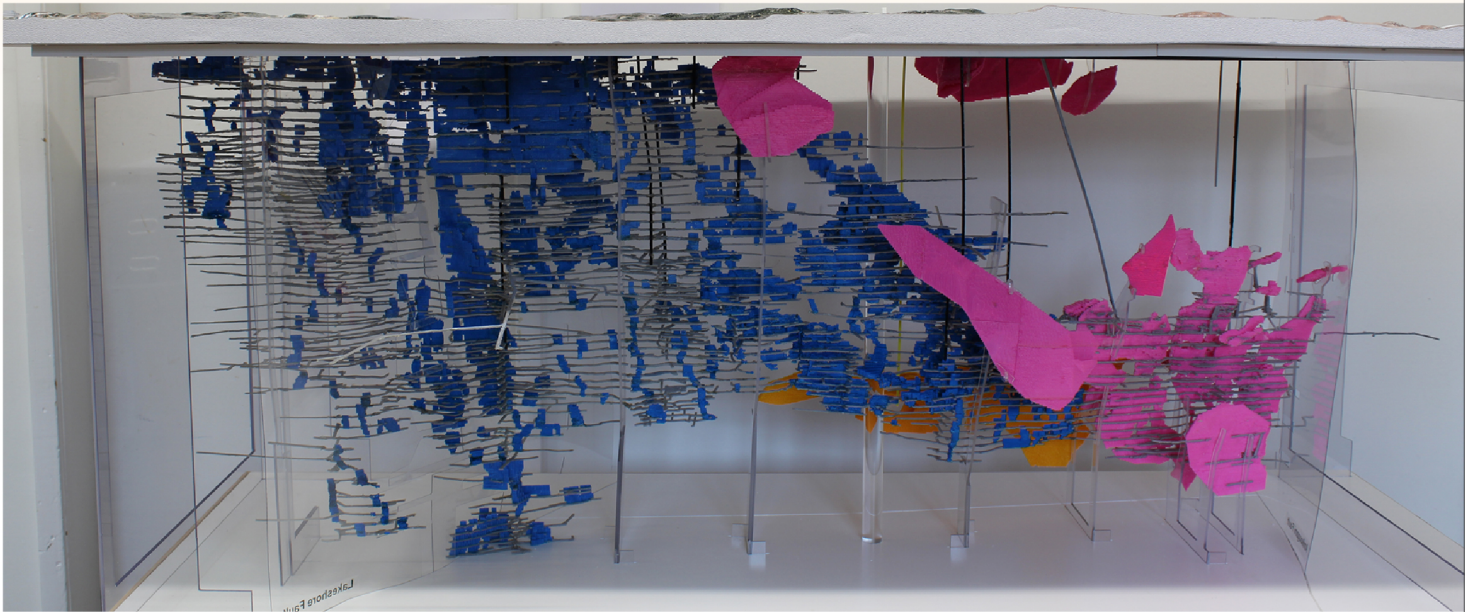

Frontier Lithium, PAK Project

8 / Categories2-Underground Model

directly printed from engineering design

74x31x28" (1875x788x711mm)

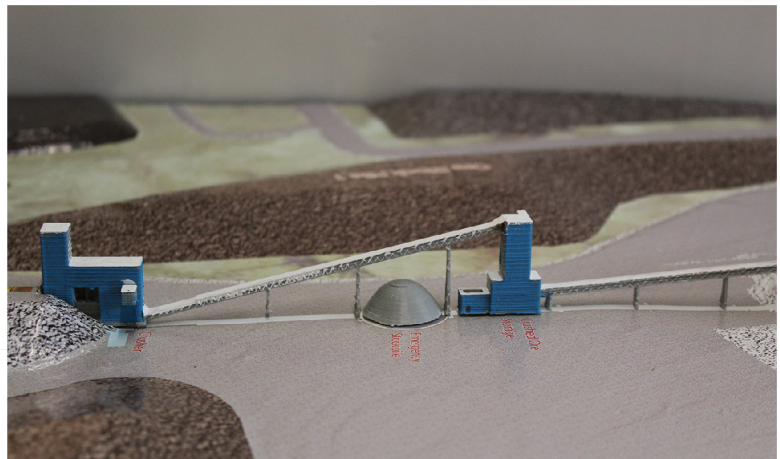

Kirkland Gold Macassa Mine

large scale 1:900 showing more details of facilities on mine site

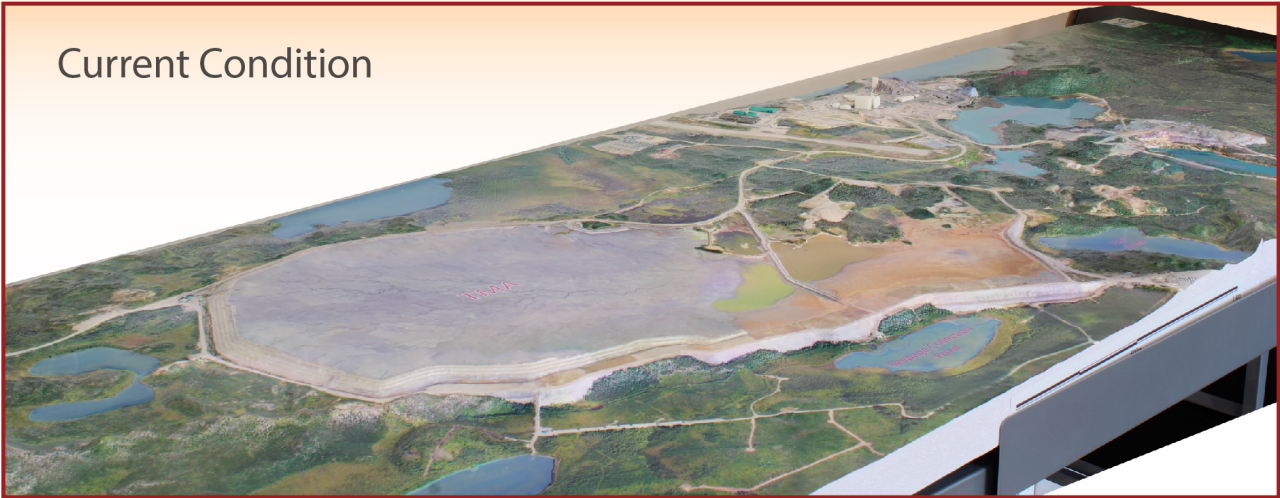

Agnico Eagle Meliadine Mine

Baffinland Mary River Mine

Current Condition

Reclamation stage1

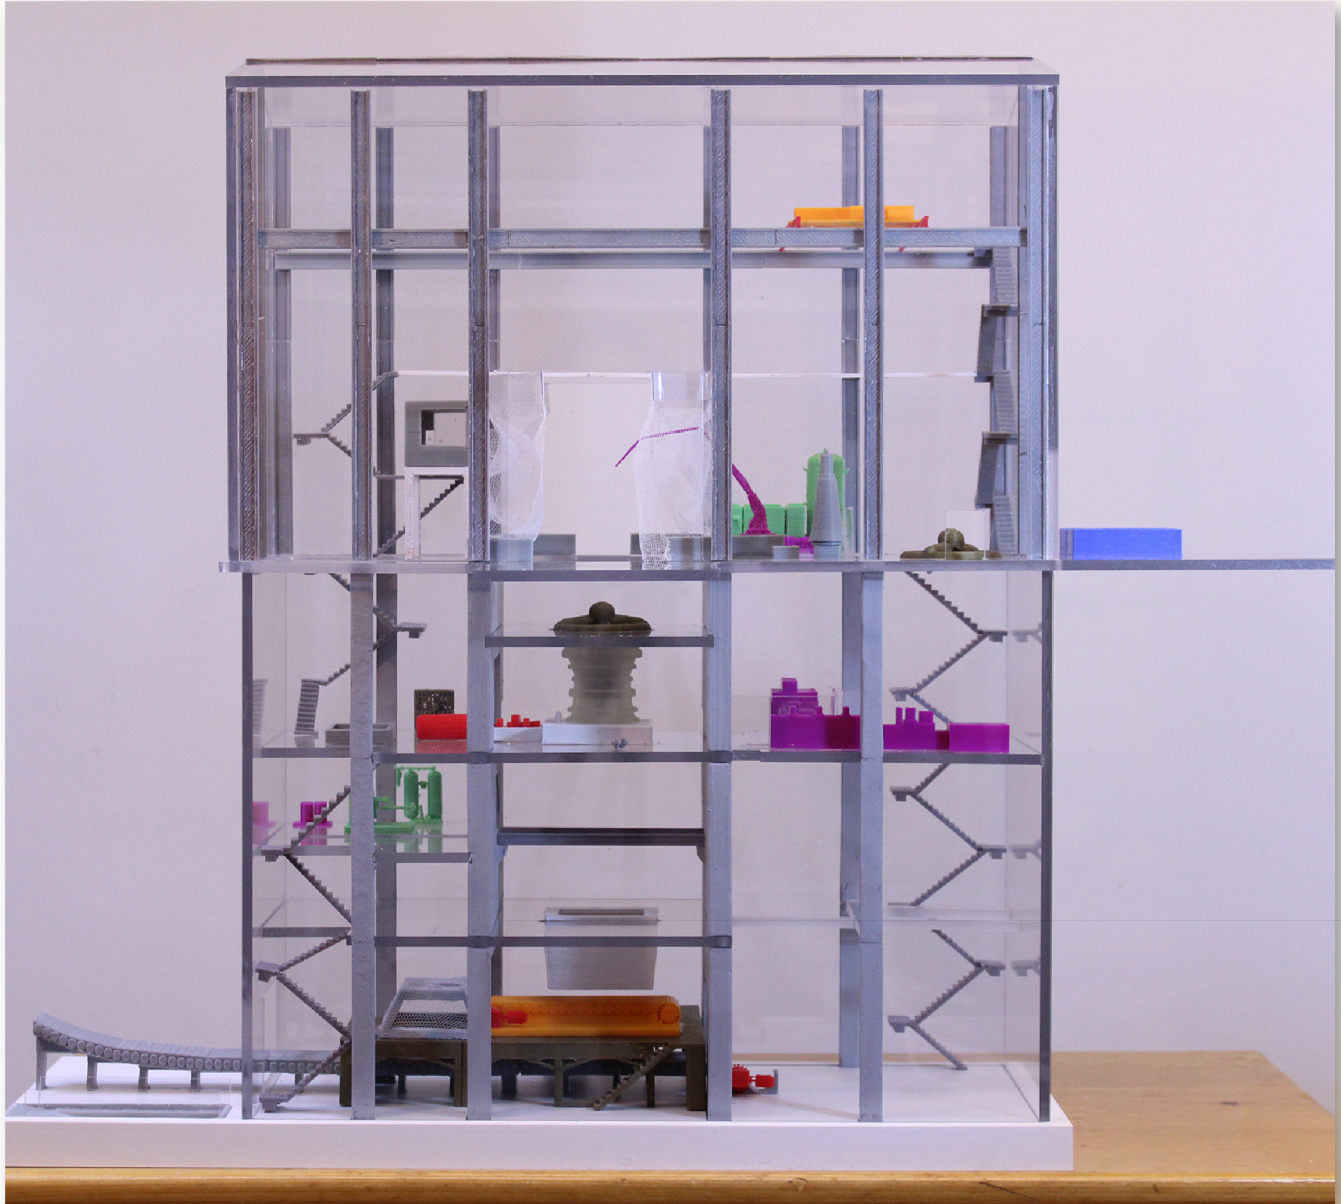

Reclamation stage2

Newmont Goldcorp Musselwhite Tailings Facility

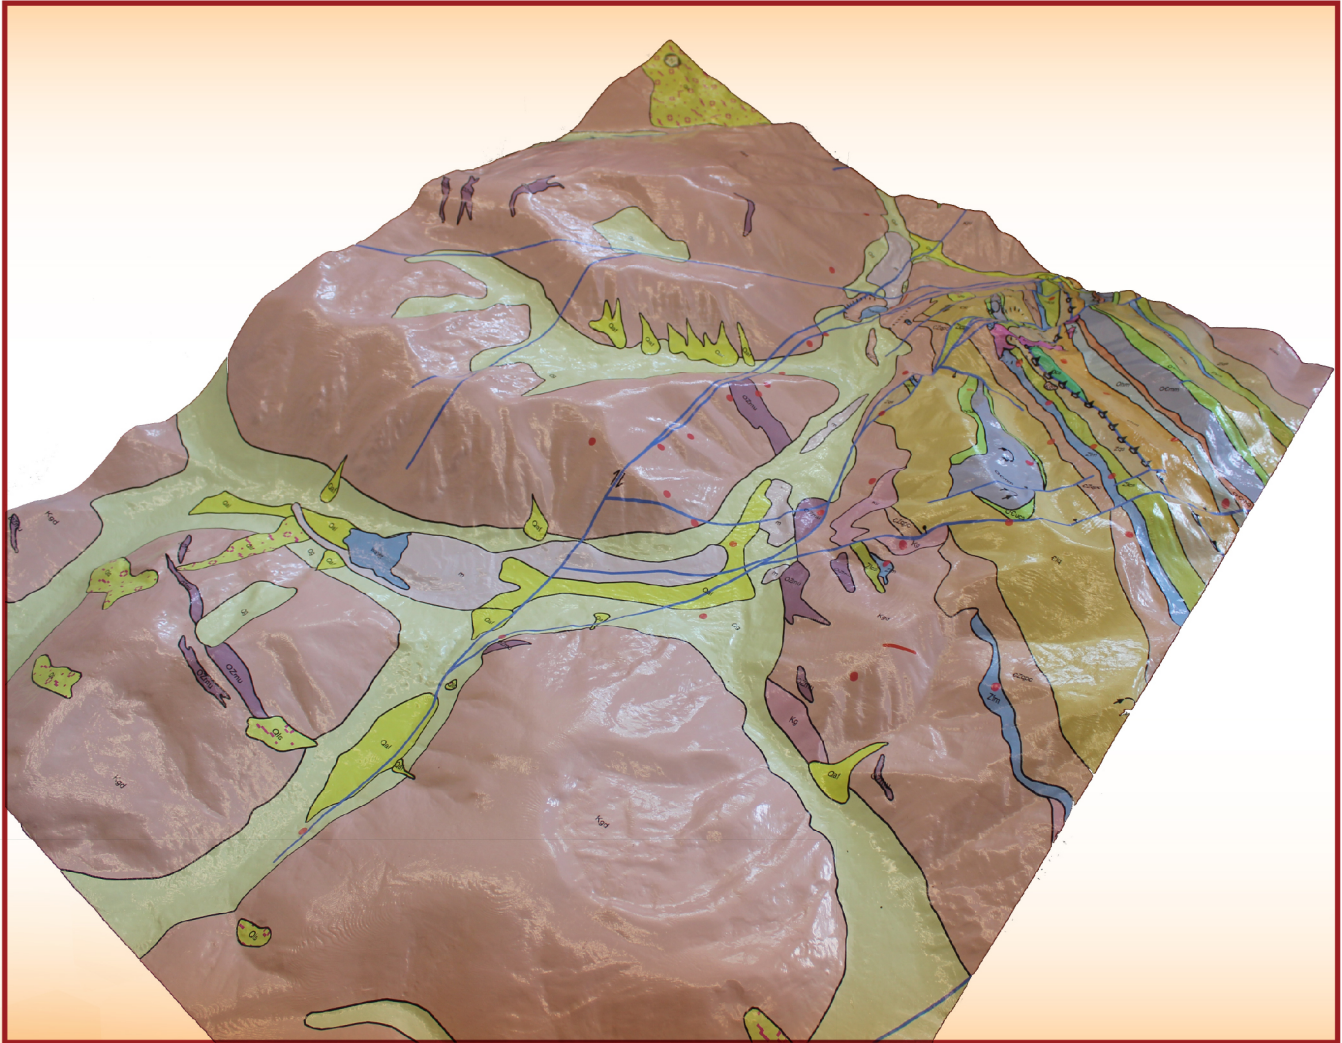

3D cursher building

Eldorado Gold Skouries Crusher Building

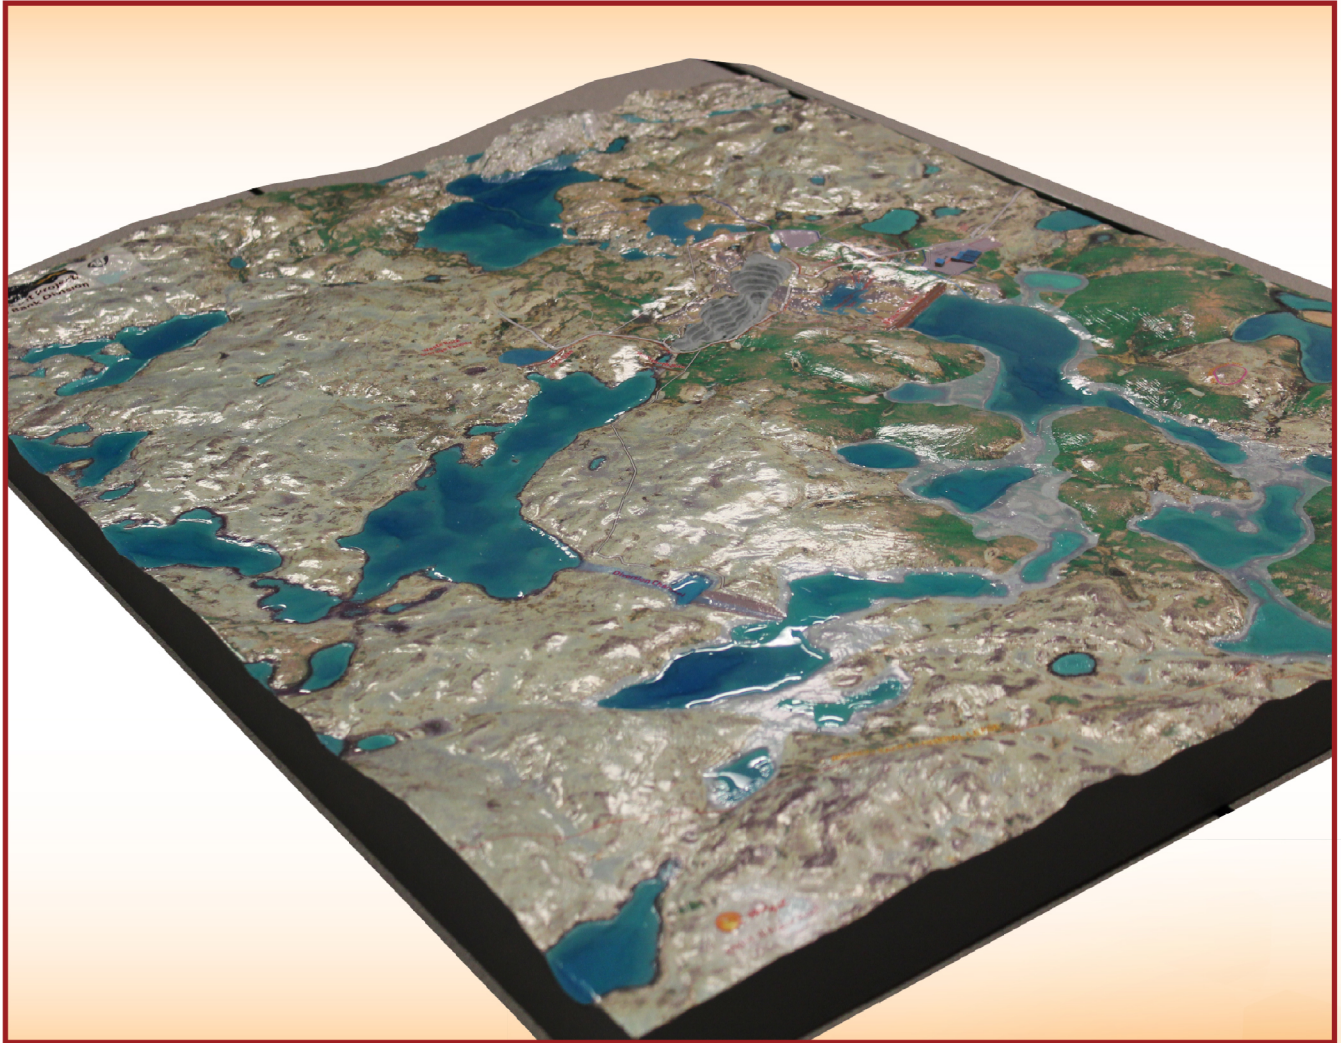

Overlay Any Map

Customize your 3D map surface with a low cost

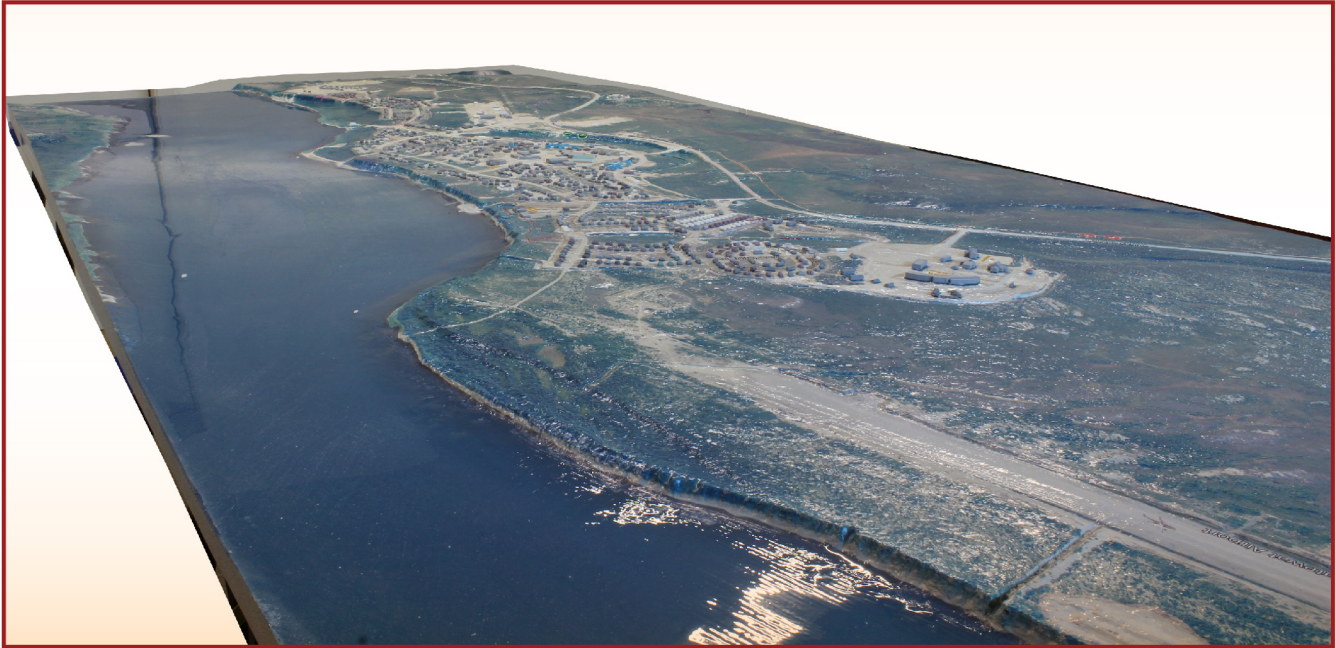

3D Geology Map

Stunning water effect Real or Simulated bathymetry

Agnico Eagle, Amaruq Meadowbank Mine

16 / Community 3D Map //

Chisasibi, Quebec

We offer standard and customized packaging to provide best portability and protection for our 3D product.
